

Thalassemia - Cooley - Related to
Sickle cell - also ^{anemia} Heterozyg Advantage

Jay See ← Britney

Nerve → cells = Neurons

all
Body → Myelin
axon

Synapses ^{NOR} in 2 Neurons - Axon sends
(space) Signal to dendrite

like a phone cord -
Myelin sheath insulates & protects
Cable

over my - lack of box a
lethal if can't conduct

XP - Refection in R.C. Rep → Cancer

Gaucher - Lysosomal storage
